

My Opus Energy

MIGRATION GUIDE

Migrating to your new online account

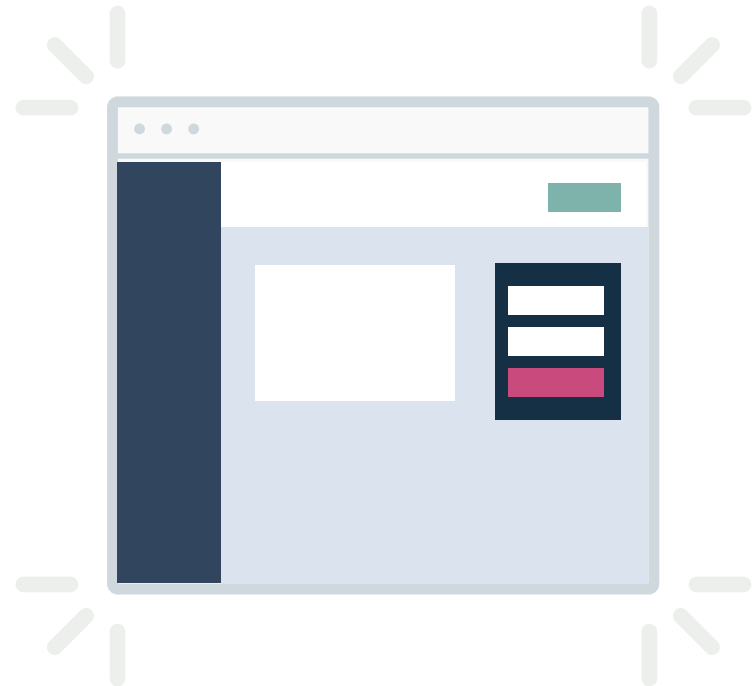

YOUR ONLINE ACCOUNT IS BEING UPGRADED

We're introducing a new-look, new-functionality online account, My Opus Energy.

This will replace your current online account and will make it easier than ever to manage your energy supply.

When you've been migrated to My Opus Energy, you'll receive a welcome email to set your new password. From this moment, your current online account will be retired and you will only be able to access My Opus Energy.

The next page explains what will happen during the switchover period.
